

Hazardous Materials (HM) - Roadside Inspections

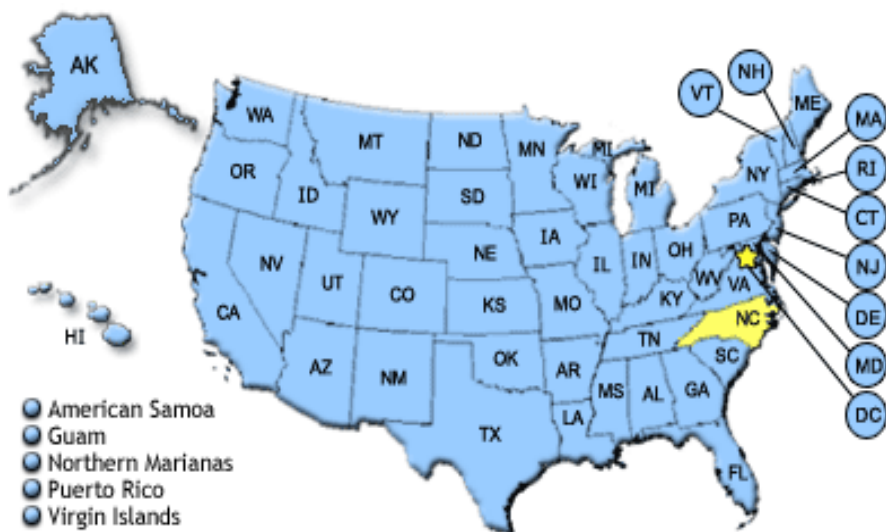

This module provides summarized data for five fiscal or calendar years including current year to date information on all roadside inspections conducted on motor carriers that transport hazardous materials in interstate or intrastate commerce.

A roadside inspection is an examination of individual commercial motor vehicles and drivers by a Motor Carrier Safety Assistance Program (MCSAP) inspector to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs).

Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service.

For information regarding FMCSA's HM goals, regulations, permits, training, security, etc.; please visit FMCSA's HM site at: <http://www.fmcsa.dot.gov/safety-security/hazmat/hm-theme.htm>

Summary of HM Roadside Inspections in North Carolina

HM Roadside Inspection Activity (North Carolina)	FY 2010		
	Fed	State	Total
Number of Inspections	6	4,783	4,789
I. Full	0	1,620	1,620
II. Walk-Around	4	2,976	2,980
III. Driver Only	2	185	187
IV. Special Study	0	2	2
V. Terminal	0	0	0
VI. Radioactive Materials	0	0	0
Driver OOS Rate	0%	2.53%	2.53%
Vehicle OOS Rate	25%	10.90%	10.91%
Hazmat OOS Rate	16.67%	5.77%	5.78%
